

I am currently Deputy Chief Medical Examiner at the Washoe County Regional Medical Examiner's Office in Reno, Nevada.

Originally from the United Kingdom, I completed my anatomic and clinical pathology residency in Ohio, a forensic pathology fellowship at Cook County Medical Examiner's Office in Chicago and a neuropathology fellowship in New York, obtaining board certification in each of these. I have practiced forensic pathology, surgical pathology and neuropathology in both the UK and the US. I have a strong interest in forensic neuropathology and infectious disease pathology.
