

Associate Medical Examiner

Hillsborough County, Florida

Hiring Range

\$146,473 – \$219,000/year (depending on qualifications)

Job Summary/Essential Job Functions

The associate medical examiner will perform functions of a forensic pathologist, conducting post-mortem examinations, and associated work duties.

Requirements

At minimum, applicants must have an MD or DO degree, certification by the American Board of Pathology in Anatomic Pathology and Forensic Pathology, and eligibility for medical licensure in Florida. If the applicant is not Board certified at the time of hiring, certification in both Anatomic and Forensic Pathology should be completed within two years.

Duties and Responsibilities

- Performs primary functions of a forensic pathologist in accordance with industry standards to determine manner and cause of death in medical examiner cases
- Maintains all required licenses and accreditations consistent with the industry standards
- Maintains individual continuing medical education and assures compliance with licensing and certification requirements
- Assists in the training of forensic pathology fellow, participate in teaching the University of South Florida pathology residents, and medical students
- Provides expert testimony in criminal and civil court as requested

Benefits

Hillsborough County participates in the Florida Retirement System, and provides an excellent benefit package including:

- Paid continuing medical education expenses
- At least 4 weeks annual leave

- Short and long term disability
- 401(k)
- Medical, dental, and vision insurance
- Professional membership dues and professional licensing fees

About Hillsborough County Medical Examiner

- In 2018, our pathologists performed 1,266 autopsies, 864 external examinations, and 6,248 case reviews.
- The Hillsborough County Medical Examiner facility was built in 2008 and includes 3 separate administration, morgue, and toxicology buildings.
- The facility is home to 2 board-certified forensic toxicologists, a board-certified neuropathologist, 12 ABMDI-certified medicolegal death investigators, a genealogist, 8 autopsy technicians, and 2 experienced transcriptionists.
- The 10-acre campus can support a mass fatality contingency while maintaining daily operations. A designated area provides room for refrigerated trailers that can accommodate an additional 200 bodies.
- The facility can sustain on-site operations following a hurricane. It was built on high ground with two days' worth of back-up power.
