

# FORENSIC PATHOLOGY FELLOWSHIP

UT Southwestern  
Medical Center

*Southwestern Institute of Forensic Sciences (SWIFS) – Dallas County  
In partnership with UT Southwestern Medical Center*

The Southwestern Institute of Forensic Sciences offers a **one-year, ACGME-accredited Forensic Pathology Fellowship** with a strong emphasis on comprehensive, scientific death investigation.

SWIFS serves Dallas, as well as numerous North Texas counties, performing approximately **4,200 examinations annually**. With **11 full-time staff pathologists**, fellows benefit from a diverse caseload, extensive scene investigation opportunities, and meaningful courtroom experience.

## Fellowship Highlights:

- Completion of **~200–250 forensic autopsies** per year
- Active participation in the Death Investigation
- In-house Criminal Investigation Lab (exposure to **toxicology, biology, trace evidence, and firearm labs**)
- Access to highly qualified faculty and outside experts in **forensic odontology, neuropathology, and anthropology**

## Program Details:

- Participates in the **NRMP Match**
- **2 fellows per academic year**
- Stipend and benefits provided through Dallas County and UTSW
- Eligibility:
  - Completion of AP or AP/CP residency
  - Texas medical license or PIT permit (H1B visas not accepted)
