

JOB OPENING

FORENSIC PATHOLOGIST

Forensic Medical Management Services of Texas, PLC

Beaumont, TX

Forensic Medical Management Services, PLC is seeking a forensic pathologist to join other forensic pathologists in the Beaumont Texas office. The successful applicant will perform autopsies, participate in Pathology resident and medical student education, assist in training other local county law enforcement and death investigators, and will be encouraged to develop a medicolegal consulting practice. Some occasional travel to our Tyler Texas office will be required.

Forensic Medical Management Services has been serving the Texas area since 2012 and employs a professional, well-trained full staff of forensic pathologists, autopsy technicians, and administrative support staff. Forensic Medical Management Services is in the process of designing a new facility due for completion in 2019. This will provide a facility which will meet the needs of the Beaumont region for years to come.

Minimum requirements include: M.D. or D.O. degree, certification by the American Board of Pathology in Anatomic Pathology and Forensic Pathology, and eligibility for medical licensure in Texas. If the applicant is not Board certified at the time of hiring, then certification in both Anatomic and Forensic Pathology must be obtained within two years.

Base salary will be based on experience. Forensic Medical provides a generous benefit package including paid continuing medical education expenses, at least 5 weeks paid time off, short and long term disability, 401(k), medical, dental and vision insurance, as well as professional membership dues and professional licensing fees.

Interested applicants can contact Dr. Li at this email address or by telephone.
