

FORENSIC PATHOLOGIST – OMAHA, NE

Founded in 1955, Physicians Laboratory is a leading independent clinical and anatomic reference laboratory servicing Nebraska and Western Iowa. Physicians Laboratory is currently seeking a full time Forensic Pathologist that is AP/CP and Forensic board certified/board eligible. Excellent communication skills are required due to the frequent interaction with law enforcement and required court testimony. Preference will be given to applicants with the desire to perform additional duties within the laboratory including the review of Cytology/Surgical samples and frozen sections at outpatient surgical centers and hospitals. Salary commensurate with experience with a range of \$200,000 - \$225,000.

****Newly constructed morgue opened on March 18, 2019****

Duties Include:

- Perform approximately 250 autopsies per year.
- Collection of materials including body fluids, cultures and tissue for diagnosis pertaining to cause of death.
- Provide deposition and/or trial testimony.
- Participate in consultation with Coroner, Law Enforcement and County Attorney staff and other specialists and officials as required by the County.
- Ensure the proper evidentiary and chain of custody rules when handling, labeling, storing and transporting specimens.
- Develop procedures and protocols for the morgue.
- Provide reports and data in a comprehensive format.
- Report to scenes of investigation when requested.

Interested applicants should send their resume to kmoreland@physlab.com
