

**CDC Foundation Field Employee Job Announcement:
Medicolegal Death Investigator- North Carolina
Number of openings -4**

The CDC Foundation helps the Centers for Disease Control and Prevention (CDC) save and improve lives by unleashing the power of collaboration between CDC, philanthropies, corporations, organizations and individuals to protect the health, safety and security of America and the world. The CDC Foundation is the sole entity authorized by Congress to mobilize philanthropic partners and private-sector resources to support CDC's critical health protection mission. Since 1995, the CDC Foundation has launched approximately 1,000 programs and raised over \$740 million. The CDC Foundation managed over 300 CDC-led programs in the United States and in more than 130 countries last year.

JOB DESCRIPTION

The CDC Foundation seeks candidates for a full time Medicolegal Death Investigator to support the CDC. These positions conduct investigations, examinations, and produce reports for deaths that fall under medical examiner jurisdiction, including opioid-related deaths, for the catchment area served by the NC OCME. The Medicolegal death investigator positions will directly assist NC OCME pathologists in expediting turnaround times (TATs) on opioid-related deaths by providing relevant investigatory information in a timely manner. This is an outstanding opportunity to work with the nation's lead agency charged with protecting the public's health. The CDC Foundation offers a competitive salary and attractive benefits package.

RESPONSIBILITIES

- Investigate death scenes within the NC OCME catchment area, consisting of 32 counties in the central region of North Carolina.
- Confirm decedent identifications
- Perform cursory external examinations
- Conduct relevant interviews, and complete appropriate reports to assist NC OCME pathologists in accurately determining the cause and manner of death.
- Other duties as assigned.

QUALIFICATIONS

- Bachelor's degree in a biological or medically-related field, forensic science, or criminal justice Required
- Minimum one years of experience in an investigatory (homicide/death scene investigations) or response field (military, law enforcement, Emergency Medical Technician – Paramedic).
- American Board of Medicolegal Death Investigators (ABMDI) certification is preferred.
- Highly detail oriented, works well within a diverse team, demonstrates a high degree of initiative and flexibility, able to communicate effectively in a positive and professional manner, able to prioritize activities when under tight deadlines, and possesses analytical skills.
- Strong technical skills including word processing, spreadsheet development and management, and database management, with a particular emphasis on proficiency in Microsoft Office Suite.
- Excellent written and verbal communication skills with particular experience reviewing and editing documents.
- Outstanding interpersonal and teamwork skills; collegial; energetic; and able to develop productive relationships with colleagues, stakeholders, and partners.
